SC-8

RECYCLE YOUR NATURAL STONE SCRAP FOR PROFITABLE RESALE

SC Series Stone Crushers from Schutte-Buffalo Hammermill are specifically designed to meet the unique needs of the natural stone counter top industry. Our rugged, reliable stone crushing hammermills offer exceptional performance and value so you can crush and recycle stone scrap material for profitable resale, easily and cost-effectively.

- Reduce scrap for specific requirements from sand size particles to chips.
- Reuse as filler for commercial driveways, patios and landscaping
- Reuse in concrete mix for decorative applications
- Eliminate high fees of collecting and transporting waste.

No material goes to waste when you use the SC Series Crusher. Ideal for:

- Marble
- Granite
- Soapstone
- Travertine
- Slate
- Stone Tile

FEATURES

CRUSHING PERFORMANCE YOU CAN COUNT ON

- Made in the USA with rugged steel plate construction for decades of continuous service
- Easy access to grates and other components reducing downtime for maintenance
- Prompt availability of replacement parts
- The optimum combination of low initial investment and long-term durability

CHOOSE FROM THREE UNIQUE MODELS

MODEL SC-2224

- High production capacity
- Large feed opening . . . accepts up to 20"x20" material
- Interchangeable grates for specific particle sizing
- Hydraulically opens for easy servicing
- 3" wide cast carbide hammers

MODEL SC-16

- Compact space saving design
- Accepts up to 10"x 10" material
- Interchangeable grates to produce specific particle sizing
- 2" wide tungsten carbide hammers. 4-way reversible for long service life

MODEL SC-8

- Designed for use following Diarex® Stone Cycler
- Accepts up to 5"x 5" material
- Interchangeable grates to produce specific particle sizing
- 1" wide tungsten carbide hammers
